BROAD TECHNOLOGY EXECUTIVE

Technology executive with 25+ years leading IT, service delivery, enterprise platforms, customer-facing technology, infrastructure modernization, and organizational transformation. Has operated at enterprise scale across 150,000 users, 2,000+ applications, a 65-person direct team, a ~\$22M operating budget, and a broader matrix of 900+ distributed technology professionals, while also leading technology functions in smaller, high-agency companies. Combines executive operating discipline with hands-on technical judgment across cloud, business systems, practical AI adoption, and customer-facing operations.

CORE STRENGTHS

- CIO, VP IT, Director of IT, and broad technology leadership scope
- Strategic IT planning, technology roadmapping, enterprise architecture, and operating-model design
- Enterprise systems, business platforms, vendor management, and technology portfolio leadership
- Global service delivery, customer success, support, and sustaining-engineering leadership
- Cloud migration, infrastructure modernization, DevOps, and platform reliability
- AI adoption, workflow integration, and operating-model change across enterprise and SMB environments
- Salesforce, ServiceNow, Microsoft 365, NetSuite ERP, Atlassian, SharePoint, Tableau, and SSIS
- Board-facing advisory work, budgets, fundraising support, acquisition readiness, and M&A transitions
- Experience working within ITIL-governed environments

PROFESSIONAL EXPERIENCE

Marsh McLennan

Global Head of Service Delivery and Customer Success | July 2023 – August 2025 | Boston, MA / Hybrid

- Led global IT service delivery organization supporting 2,000+ applications serving 150,000 colleagues worldwide; managed a 65-person direct team with a ~\$22M operating budget and delivery oversight across a broader matrix of 900+ distributed technology professionals
- Transformed a tactical service delivery function into a strategic C-level Customer Success organization, enabling direct partnership with business unit CIOs
- Improved operational efficiency by 35% while reducing escalations by 35%; drove 40% improvement in stakeholder satisfaction and business unit engagement
- Established enterprise-wide operating frameworks supporting platform reliability, accountability, and cross-regional delivery predictability
- Contributed to AI-enabled support operations, including ServiceNow ticket routing and knowledge-base integration through MoveWorks

Oliver Wyman (Oliver Wyman Labs)

Senior Director of Technical Operations and Sustaining Engineering | October 2016 – February 2021 | Boston, MA

- Directed a global organization spanning Sustaining Engineering, Customer Success, tier 3 Technical Support, DevOps, Hosting, and Business Operations for Fortune 500 clients
- Owned P&L generating \$20M annual revenue with >40% net profit margins
- Led the transformation of an aging hosting environment to a hosted, containerized cloud architecture, with the sustaining-engineering organization executing refactoring that enabled migration of 200+ applications
- Maintained 99.9% uptime SLAs for mission-critical customer-facing applications
- Partnered with Fortune 500 client CTOs and CIOs to align technical operations with business goals
- Built and managed the company's Salesforce platform end-to-end across Sales Cloud, Marketing Cloud, Service Cloud, and CPQ

BlueprintAgentic (BlueprintAgentic.ai)

Fractional CIO and Multi-Discipline Engineering Consultant | August 2025 – Present | Boston, MA / Remote

- Deliver technology consulting for startups and SMBs combining fractional CIO leadership, AI business transformation, multi-discipline engineering, and applied AI research and development

- Provide board-facing technology leadership across strategy, organizational design, vendor selection, budgets, fundraising support, and M&A transitions
- Advise leaders and teams on AI adoption and operating-model change across Claude, ChatGPT, Microsoft Copilot, Gemini, and cross-platform AI tools
- Design AI-based process integration patterns across operational systems, including customer-facing AI for chat-based discovery, recommendation, and engagement

ProStor Systems

Director of Technical Services and CIO | April 2010 – June 2012 | Boulder, CO

- Architected complete transformation and modernization of global IT infrastructure, preparing the company for 10x annual growth and acquisition readiness
- Redesigned a struggling 24x7 global support organization to support rapid growth and expanded services for critical healthcare environments
- Led services-function M&A activities during the successful company sale while answering directly to the CEO and board
- Built and managed the company's Salesforce platform supporting global sales, marketing, and 24x7 customer support operations

Lavastorm

Sr Director Global Support and then General Manager RA Division | January 2014 – August 2016 | Boston, MA

- Inherited a dysfunctional support organization losing \$1M annually and drove a turnaround to 30% EBITA profitability within 9 months
- Improved customer satisfaction scores by 45% and doubled new license sales year-over-year while maintaining strong renewals
- Managed enterprise platform architecture including Salesforce, ecommerce systems, BI platforms, and NetSuite ERP
- As General Manager, held full P&L accountability across engineering, product management, professional services, support, and customer success for the RA division
- Personally negotiated divestiture of the division to Martin Dawes Systems and led diligence, customer transition, and integration handoff

Mill Town Agriculture

Chief Executive Officer and Founder | March 2021 – July 2023 | Holyoke, MA / On-site

- Raised \$9.4M in capital and built a technology-centric vertically integrated agricultural operation from concept to revenue
- Designed and implemented the complete technology environment for a large-scale indoor agriculture facility, including CRM, ERP, automation, and enterprise-grade monitoring
- Led strategic turnaround, refinancing, and leadership transition when market conditions deteriorated

Dell

Chief of Staff - Managed Deployment Services Business | November 2012 – January 2014 | Denver, CO

- Served as operational right-hand to the Managing Director for a global consulting services division
- Developed and launched Dell Agile Consulting, growing revenues by \$20M
- Architected operational platforms and business intelligence infrastructure using SharePoint, SSIS, Tableau, and Salesforce

HP Enterprise Services

Global Services Business Manager / Global Program Director | February 2007 – April 2010 | Fort Collins, CO

- Drove worldwide business strategy for storage consulting and support services, generating \$140M services growth over two years
- Promoted to Program Director with matrix oversight of 1,500+ employees across a global organization
- Coordinated 1,100+ consultants from 12+ partner organizations for global delivery programs
- Led M&A diligence and integration activities during acquisition of four storage technology startups

EARLIER CAREER

Lot Hunters - CIO / CTO | November 2003 – February 2007 Founding technology leader for a technology-driven property acquisition startup that experienced 20x annual growth; built core IT infrastructure and led development of a proprietary prospecting system later converted into a SaaS application.

NewsEdge - Technical Support Lead | September 2000 – October 2003 Promoted within six months to lead a team of nine tier 1-3 support engineers; doubled customer satisfaction and retention; supported Fortune 500 enterprise clients.

ESC Medical Systems Ltd - Materials Manager / Interim IT Manager | May 1998 – September 2000 Stepped in as interim IT manager for several months while continuing core operational responsibilities.

Regal Auction Service LLC - Business Manager | September 1996 – May 1998
