## ENGINEERING, PLATFORM & APPLIED AI LEADER

---

Hands-on technology leader with 25+ years across software delivery, cloud infrastructure, DevOps, platform modernization, AI systems, and engineering operations. Led a 200+ application cloud-native transformation, built production-oriented multi-agent AI platforms and research infrastructure, and has repeatedly operated at the intersection of architecture, delivery, technical operations, and business execution. Brings deep technical judgment with enough operating range to lead engineering organizations through growth, modernization, platform change, and applied AI buildout.

## CORE STRENGTHS

---

- Engineering leadership, platform strategy, delivery discipline, and architecture oversight
- Cloud migration, containerization, DevOps, CI/CD, SRE, monitoring, and observability
- Multi-agent AI platforms, agent orchestration, retrieval, context engineering, and model-serving environments
- Hybrid cloud and on-premise systems, networking, enterprise storage, GPU infrastructure, and distributed inference
- Full-stack development judgment from infrastructure layer through application code
- AI-assisted SDLC, engineering automation, observability, and self-healing system concepts
- Data, BI, ETL, analytics strategy, and operational reporting
- Technical leadership in regulated enterprise environments and high-agency startup settings

## PROFESSIONAL EXPERIENCE

---

### Oliver Wyman (Oliver Wyman Labs)

*Senior Director of Technical Operations and Sustaining Engineering | October 2016 – February 2021 | Boston, MA*

- Led transformation of a hosting environment from aging on-premise infrastructure to a hosted, containerized cloud-native architecture
- Directed a global organization spanning Sustaining Engineering, Customer Success, tier 3 Technical Support, DevOps, Hosting, and Business Operations
- Built and led the sustaining engineering function that owned applications after consulting delivery, including maintenance, bug fixes, minor enhancements, refactoring, and reliability
- Implemented DevOps practices, CI/CD automation, and monitoring frameworks reducing deployment cycles by 60%
- Maintained 99.9% uptime SLAs for mission-critical customer-facing applications
- Owned P&L generating \$20M annual revenue with >40% net profit margins

### BlueprintAgentic (BlueprintAgentic.ai)

*Fractional CIO and Multi-Discipline Engineering Consultant | August 2025 – Present | Boston, MA / Remote*

- Built multi-agent AI platforms from scratch to test applied AI workflows, orchestration patterns, and platform architecture
- Built complete research computing infrastructure from the ground up, including server hardware, networking, storage, distributed inference, and model-serving environments
- Developed context engineering patterns including token budgeting, multi-tier retrieval, persistent memory, hybrid vector and graph retrieval, and knowledge graph memory
- Developed meta-programming, AI-assisted CI/CD, observability, and self-healing system concepts
- Worked daily across modern AI coding and orchestration surfaces including Claude Code, Codex CLI, Gemini CLI, Cursor, OpenCode, and a personal LibreChat fork

### Lot Hunters

*CIO / CTO | November 2003 – February 2007 | Fort Myers, FL*

- Served as founding technology leader for a technology-driven property acquisition startup experiencing 20x annual growth
- Architected and led development of a proprietary property prospecting system later converted into a SaaS application with subscription billing, scale, and high-availability requirements
- Built and scaled the technology organization from startup phase through growth

## Mill Town Agriculture

*Chief Executive Officer and Founder | March 2021 – July 2023 | Holyoke, MA / On-site*

- Designed and implemented the complete technology environment for a large-scale indoor agriculture facility, including CRM, ERP, automation, and enterprise-grade monitoring
- Architected technology integration across manufacturing, cultivation, and retail operations
- Led strategic turnaround and leadership transition while preserving long-term viability of the company

## Marsh McLennan

*Global Head of Service Delivery and Customer Success | July 2023 – August 2025 | Boston, MA / Hybrid*

- Led global service delivery for 2,000+ applications supporting 150,000 colleagues worldwide
- Drove operational decentralization and automation strategy to improve autonomy and effectiveness across a broad technology organization
- Contributed to AI-enabled support operations including ServiceNow ticket routing and knowledge-base integration through MoveWorks

## Lavastorm

*Sr Director Global Support and then General Manager RA Division | January 2014 – August 2016 | Boston, MA*

- Managed enterprise platform architecture including Salesforce, ecommerce systems, BI platforms, and NetSuite ERP
- As GM, held full P&L accountability across engineering, product management, professional services, support, and customer success
- Recognized an aging product platform had reached the end of its useful development lifecycle and reset the business model around the remaining market opportunity

## ProStor Systems

*Director of Technical Services and CIO | April 2010 – June 2012 | Boulder, CO*

- Architected complete transformation and modernization of global IT infrastructure in preparation for 10x growth and acquisition readiness
- Implemented infrastructure standards, vendor management, and services-function M&A support during successful company sale

## HP Enterprise Services

*Global Services Business Manager / Global Program Director | February 2007 – April 2010 | Fort Collins, CO*

- Coordinated 1,100+ consultants from 12+ partner organizations for global delivery programs
- Led implementation of collaboration platforms, training, and delivery methods across a global organization

## EARLIER CAREER

---

**Dell** - Chief of Staff, Managed Deployment Services Business | November 2012 – January 2014 Built operational reporting and BI infrastructure using SharePoint, SSIS, Tableau, and Salesforce.

**NewsEdge** - Technical Support Lead | September 2000 – October 2003 Led a support team serving Fortune 500 enterprise clients and worked cross-functionally with development, QA, and release teams on product launches.

**ESC Medical Systems Ltd** - Materials Manager / Interim IT Manager | May 1998 – September 2000

**Regal Auction Service LLC** - Business Manager | September 1996 – May 1998

## EDUCATION & CREDENTIALS

---

- MIT - Certificate, Artificial Intelligence Engineering and Applied Analytics (2025)
- University of Denver, Daniels College of Business - MBA; MSIT, concentration in Business Intelligence and Data Warehousing
- University of New Hampshire - Dual Bachelor's Degree, Psychology and Communications
- Beta Gamma Sigma Lifetime Inductee
- HP Tech Services Group MVP
- NewsEdge Customer Service Award
